

ENVIRONMENTAL POLICY

ACTION ENGINEERING is committed to protecting and minimising its impact on the environment by:

- Complying with consents, policies and legislation
- Integrating environmental issues in financial planning and decision making
- Promoting sustainable use of resources by taking environmental impacts into consideration
- Committing to continual improvement of environmental management systems
- Setting a framework for objectives that:
 - makes certain that discharges to the environment are processed in an environmentally safe manner
 - implements control procedures to minimise spills and pollution
 - monitors and reduces energy use and levels of waste entering landfill
- Effectively train and certify management and staff
- Conducting regular environmental audits to assess compliance

**WE ARE COMMITTED TO ACHIEVING
EXCELLENCE IN ENVIRONMENTAL MANAGEMENT**
