

# MISSION STATEMENT

**ACTION ENGINEERING LIMITED** is recognised New Zealand wide as an innovative “Can-Do” engineering company, backed by full commitment from our three Executive Directors.

We improve project outcomes via openness, trust, teamwork and involvement.

We are known for our outstanding quality, safety and innovation. We enjoy the satisfaction and excitement of safely and successfully completing technically challenging projects.

We work proactively with clients to identify their specific needs. This includes doing what we say we will do, when we say we will do it, and ensuring all relationships are conducted in an ethical manner.

All staff start each day with a sense of purpose, and end each day with a sense of accomplishment.

We are recognised as providing best-in-class customer service, technical support and delivery and we ensure that our customers’ expectations are exceeded, wherever they operate.

We will continue to develop our people, structure and internal systems to allow us to continue to grow. We operate safely and act responsibly towards our community and environment.

Our business ethics, governance standards and safety record will reflect our leadership position in our critical industry.
